Building a sustainable business

Our long term aim is to operate our business in a way that is financially rewarding for our shareholders and positive for our people, our customers and our planet.

Steel is one of the world's most essential and sustainable building products – permanent, forever reusable and the most recycled substance on the planet. On a cradle to cradle basis, steel's environmental performance compares favourably to other materials such as concrete and timber.

Our purpose

To make life easier for our customers needing steel solutions

- Providing a one-stop-shop for the most essential steel products – from foundation to roof and everywhere in between
- Doing everything we can to make it easy for our customers to do business with us
- Always looking for ways to work smarter
- Using technology and great thinking to pull it all together and enable a better business
- Building one great team right across the Steel & Tube business

Strategic focus

Growth focused on strengthening the core and building higher value products, services and sectors to drive gross margin improvement – benefits expected from FY24 onwards

Continue to Strengthen the Core

- Continue to build best-in-class customer experience
- Leverage opportunities to cross sell a wide range of products and services
- Drive gross margin \$/tonne through dynamic pricing and product procurement
- Ongoing focus on operating model – warehouse operations, digitising supply chains and customer facing channels

Grow High Value Products, Services and Sectors

- Improving resilience of earnings through economic cycles
- Growth is targeted towards high value products, diversified materials and value-added services
- Continue to diversify customer segments and build scale and footprint in these areas
- Accelerate shift to digital sales
- Primary focus is organic investment, continue to review direct adjacent sectors

Expanded plate processing capability and offer

- Attractive value-added products
- Growing market sector
- Replacement of obsolete equipment with large, high capacity machinery
- Market leading – digitally enabled, automated cutting, optimises remnants
- Operational from June 2022, solid forward workload already in place
- Existing footprint has significant opportunity to expand

Kiwi Pipe and Fittings

- Symbolic of strategy to selectively invest in high value products and segments
- Niche strength – fire and water reticulation products
- Builds on Steel & Tube's existing offer
- Provides scale, market share growth and immediately earnings accretive

FY23 Outlook

Robust operating model, well positioned to deliver through the economic cycle

Trading conditions:

- Continuing volatility in global and local economies expected
- Steel pricing expected to remain elevated in the near term
- Shorter term strong demand likely to continue across most sectors
- Longer term, steel demand in some sectors will moderate off the recent extraordinary high demand levels, as is already being seen

Sector Outlook

- Significant rebuilding of Government investment in infrastructure (+56% over the next decade compared to last decade, particularly roading and water)
- Manufacturing (food & non-food) expanding
- Residential building consents have peaked although ongoing social housing and retirement village investment expected
- Commercial construction activity strengthening

Non-GAAP financial information: Steel & Tube uses several non-GAAP measures when discussing financial performance. These include Normalised EBIT and Working Capital. Management believes that these measures provide useful information on the underlying performance of Steel & Tube's business. They may be used internally to evaluate performance, analyse trends and allocate resources. Non-GAAP financial measures should not be viewed in isolation nor considered as a substitute for measures reported in accordance with NZ IFRS.

Non-trading adjustments/Unusual transactions: The financial results for FY22 (12 months) include transactions considered to be non-trading in either their nature or size. Unusual transactions can be as a result of specific events or circumstances or major acquisitions, disposals or divestments that are not expected to occur frequently. Excluding these transactions from normalised earnings can assist users in forming a view of the underlying performance of the Group. The above reconciliation is intended to assist readers to understand how the earnings reported in the periods ended 30 June 2021 (12 months) and 30 June 2022 (12 months) reconcile to normalised earnings. Non-trading adjustments of \$(0.3) million are included in the FY22 (12 months) results.

Glossary of Terms
