A brief explanation of any of the figures above necessary to enable the figures to be understood	<p>Non-GAAP financial information</p> <p>Steel & Tube uses several non-GAAP measures when discussing financial performance. This includes normalised EBIT. Management believes that these measures provide useful information on the underlying performance of Steel & Tube's business. They may be used internally to evaluate performance, analyse trends and allocate resources. Non-GAAP financial measures should not be viewed in isolation nor considered as a substitute for measures reported in accordance with NZ IFRS. Reconciliations of non-GAAP measures to GAAP measures are detailed within this announcement.</p>	

	<p>Steel & Tube reports its normalised EBIT as \$19.0m for FY21 (up from \$0.4m in FY20). Further details on the unusual transactions/non-trading adjustments are included in the investor presentation for the year ended 30 June 2021.</p> <p>Definitions:</p> <ul style="list-style-type: none"> • EBIT: This means earnings before interest and tax and is calculated as profit for the period before net finance costs and tax. • Normalised EBIT: This means EBIT after normalisation adjustments. • Normalisation adjustments: These are transactions that are unusual by size or nature in a particular accounting period. Excluding these transactions can assist users in forming a view of the underlying performance of the Group. Unusual transactions can be as a result of specific events or circumstances or major acquisitions, disposals or divestments that are not expected to occur frequently.
