

# RIGITUBE

PRODUCT INFORMATION > STAINLESS STEEL

RigiTube™ is a rigidized patterned tube that provides grip, durability and aesthetic appeal that plain un-patterned tubes fail to offer.

Durable and readily fabricated, RigiTube™ can be used in all environments for foot and hand rail purposes. The use of a pattern will also hide and deflect scratches and dents.

Standard Size:	31.80 OD x 1.20mm WT
Standard Length:	Available in 3 metre or 6 metre lengths
Pattern:	Rimex 7GM (Raised)
Material:	T304 Stainless Steel
Applications:	<b>Handrails</b> - Buses, Trains, Boats, Industrial, Stairways, Ramps and Door Pulls. <b>Safety Rails</b> - Toilets, Baths, Showers, Rest Homes, Hospitals, Dairy / Meat Plants, Breweries and Wineries, Oil / Petroleum Installations
Other Uses:	Ladder Rungs, Foot Rails

**NB:**

- Handrail brackets to match RigiTube™ are also available.
- Other tube sizes, patterns, and material types may be available on request subject to minimum quantity requirements.
