Match your application with the correct grade of chain and fittings.

Pewag Austria, who can trace their history back to 1479, manufacture a range of Grade 6 Plus Stainless Steel Lifting Chain and Fittings which are now available in New Zealand from Steel & Tube - exclusive agents.

Pewag Grade 6 Plus Stainless is the highest class of C&R Stainless lifting product available and includes diameters 4mm through to 26mm with working loads from 320 kg to an amazing 12,000 kg.

This is a highly sophisticated system whose chains and components are manufactured on the basis of high grade steel material AISI 316 Ti, AISI 316 L as well as AISI 318 LN.

With so much focus on Health & Safety, the opportunity to use a Grade 6 product capable of lifting 20% more than Grade 5 offers opportunities to utilise a smaller and lighter diameter and still able to attain the WLL required.

FEATURES

- European quality manufactured (except shackles).
- Highest WLL for size.
- Corrosion resistant.
- Up to 12 tonne capacity.
- Spare parts available.

BENEFITS

- Traceability.
- Longer product life.
- Technical support.
- Customised variations available.

The Connecting Link (CWI) can be utilised in combination with stainless steel chains, wire rope, eye hooks or Masterlinks – unsurpassed in terms of user friendliness and unbeatable Pewag quality.

Inox can be used in dissimilar corrosive mediums as well as at elevated temperatures – in certain circumstances, even up to a maximum of +700 degrees C.

Made in Europe, all products come with full certification and traceability.

The Grade 6 Plus Stainless range is ideally suited for (but not limited to) the following market sectors:

- Water & Wastewater.
- Chemical Industry.
- Food Processing.
- Geothermal.
- Dairy Processing.
- Beverage.
- Meat Processing.

Pewag also manufacture Grade 6 Stainless Pump Chain designed for the safe lifting and lowering of submersible pumps. Each chain can be made fully welded to your exact specifications, simply by advising the following:

- Weight of submersible pump.
- Length of chain required.
- Attachment to pump single or double leg.

Each custom made Pump Chain comes complete with a stainless tag engraved with full details of full working capacity.
