He is currently a Limited and several of its Director of the National Bank associate companies. of New Zealand Limited, the

## MR AC CANDY

Appointed Company Secretary in February 1992, Mr Candy joined the Company as Financial Controller of the Merchandising Division in 1988.

#### MR AB DANIELS

A Director since 1985,
Mr Daniels is Managing Director
of Tubemakers of Australia
Limited and a Director of several
of its associated and subsidiary
companies. He is Chairman of
JAS-ANZ, the joint accreditation
system of Australia and
New Zealand and is a member
of the Business Council of
Australia and the Trade Policy
Advisory Council.

## BOARD OF DIRECTORS

New Zealand Meat Producers

Corporation, New Zealand

Wool Testing Authority Limited, Petroleum New Zealand Limited and Rangatira Limited and is also a trustee of the Business and Parliamentary Trust.

Board, The Todd

#### MR N CALAVRIAS

In September 1990 Mr Calavrias was appointed an Executive Director following the acquisition of the Acorn Pacific Corporation Group of which he was Managing Director. He was appointed Chief Executive Officer of the Group from 1 July 1991 and is a member of the New Zealand Business Roundtable.

#### DR RL EVERY

Dr Every was appointed to the Board from Tubemakers of Australia Limited as an Executive Director in 1988.

A metallurgist by profession, his experience with Tubemakers has been mainly in steel merchandising. He was Chief Executive Officer of Steel & Tube Holdings Limited from I August 1989 until 30 June 1991. In July 1991 he returned to Australia and is now Group General Manager Merchandising with Tubemakers of Australia Limited. Dr Every continues as a non-executive Director.

### MR AS PATERSON

Appointed a Director in 1975,
Mr Paterson is Chairman of
PowerBuy Group Limited and
a Director of Rangatira Limited,
New Zealand Petroleum Limited,
Nelson Fisheries Limited,
Tru-Test Corporation Limited
and Danaflex Packaging
Corporation Limited.

## DIRECTORS

REPORT

The Group earned tax paid profits of \$27.4 million for the twelve months ended 30th June 1995.

This profit was 4% above the earnings of \$26.4 million in the last reporting period which covered the fifteen months to 30th June 1994.

When compared with the management accounts for the twelve months to 30th June 1994, the profit for the year ended 30th June 1995 was 23% higher with all activities in the Group producing improved profits.

Sales increased by 12% from \$299.8 million to \$335.7 million.

As previously announced, the Group sold its 50% interest in Motorcorp Holdings Limited on 28th June 1995, so a full year's result was included for 1994/95. The Group no longer has any business in the automotive industry. A net gain of \$0.9 million from abnormal items was included in the 1994/95 result compared with a profit of \$0.8 million in the fifteen months to 30th June 1994.

The continued strong growth of the economy and the Group's investment in service centres and processing equipment enabled the Steel

Merchandising operations to achieve record profits.

Recovery of the building and construction sectors during the year also benefited the Reinforcing and Engineering operations considerably.

Increased consumer demand for the new model Land Rover and Jaguar vehicles released during the year and favourable exchange rates supported Motorcorp Holdings Limited results.

# Earnings (cents) Earnings per share Dividends per share 000 887 887 888 000 100 91 92 93 94\* 95 \*Comparative 15 month period for EPS & DPS

ACQUISITIONS AND DIVESTMENTS The acquisition of

Longrun Industries in November with branches in Auckland and Hamilton has further enhanced the Group's involvement in the metal roofing and cladding industry.

John Stansfield-Smith, the special steels operation based in Melbourne was sold to Tubemakers of Australia Limited in November and the 50% shareholding in Motorcorp Holdings Limited was sold to Eurotrans Holdings Limited in June.

per share which was paid on 3rd March 1995. This dividend carried full imputation credits as well as the supplementary dividend to non resident portfolio investor shareholders.

The Directors recommend a final dividend of 20 cents per share and if approved by shareholders at the Annual General Meeting to be held on the 25th October 1995, will be paid that day to holders of fully paid ordinary shares registered at 6th October 1995. This dividend will carry full imputation credits and a supplementary dividend of 3.53 cents to non resident portfolio investor shareholders.

stood at \$105.9 million which represents 66% of total assets.

The only change in issued capital during the year was that calls were made on 67,000 shares issued under the Senior Executives' Share

Scheme 1993 increasing the paid up capital by \$33,000.

This is the net result after the sale and purchase of the various businesses during the year and movements in the contractual

requirements of Robt Stone.

Health and safety play an important part in the Group's business philosophy. Resources are provided to train properly all employees for their tasks while safety procedures and statistics are kept under constant review by Safety Committees, Management and the Board. The Directors wish to acknowledge the staff's skills and dedication in achieving certification to ISO 9001 and ISO 9002 and their ongoing commitment to the Group's Continuous Improvement Programme.

**RE-ELECTION OF DIRECTORS** In accordance with the Articles of Association Mr K T Cocks and Dr R L Every retire by rotation and, being eligible, offer themselves for re-election to the Board.

many years has had an established Audit Committee. Its current members are Messrs K T Cocks (Chairman), A S Paterson and B M J Dineen. This committee met twice during the year.

The role of the Audit Committee is to assist the Board in carrying out its responsibilities under the Companies Act 1955 and the Financial Reporting Act 1993, regarding management's accounting practices, policies and controls relative to the Group's financial position and to review and make appropriate inquiry into the audit of the

**REMUNERATION OF EXECUTIVES** Total remuneration and benefits received, or due and receivable at 30th June 1995 were within the following bands:

\$110,000 - \$119,000	I
\$120,000 - \$129,000	2
\$130,000 - \$139,000	2
\$160,000 - \$169,000	I
\$350,000 - \$360,000	I

All the above executives are entitled to participate in the Senior Executives' Share Scheme 1993.

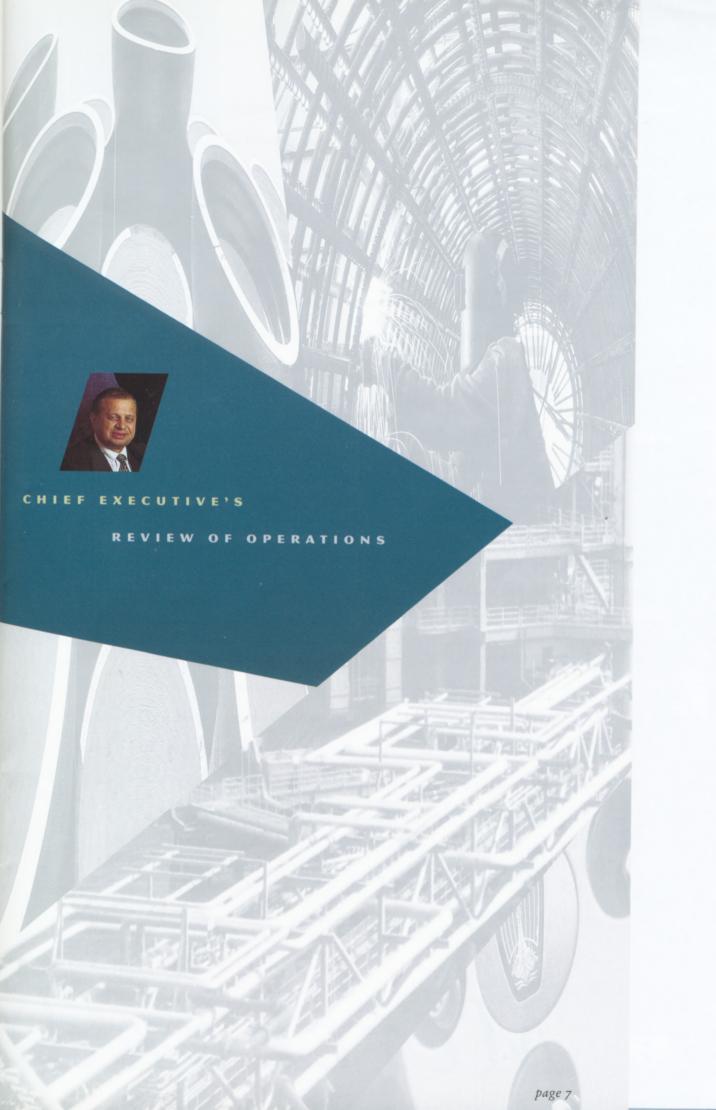

AUDITORS In accordance with Section 163 of the Companies

Act 1955, the Auditors, Coopers & Lybrand, continue in office

For the Directors

Alworks

Calaria

The general growth in economic activity and the contribution from the Steel Service

Centre facilities installed in recent years were features which enabled the

1.

Merchandising businesses to achieve record profits.

Large projects such as the Auckland Casino, Museum of New Zealand, the Waterfront Development in Wellington and the Tiwai Point Comalco Aluminium expansion, coupled with the strong demand in the

manufacturing and farming sectors all contributed.

The Plasma Cutter that was illustrated in last year's Annual Report led to valuable on-going contracts associated with the building of the ANZAC frigates.

As part of the modernisation plan begun in 1992, premises in Hamilton and Nelson were upgraded, whilst Timaru and Aitchison Black Fasteners Christchurch moved into new leased premises.

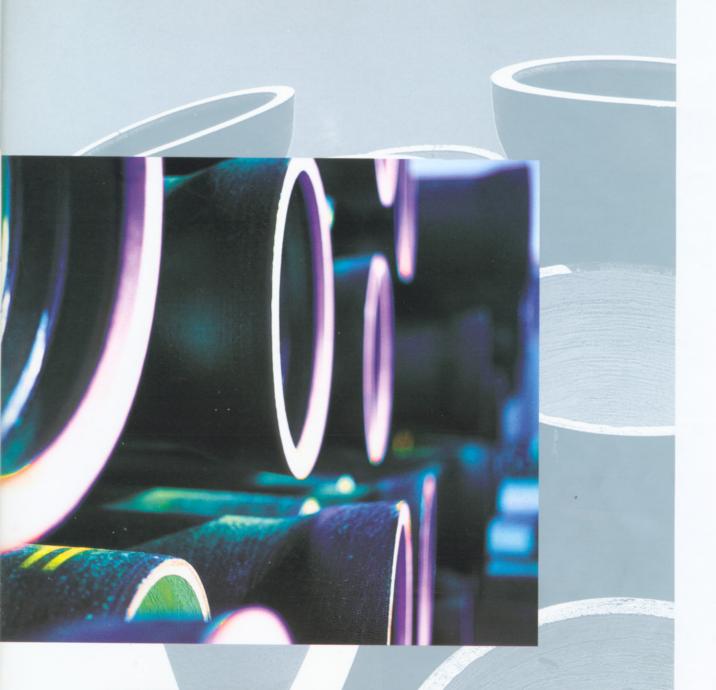

In September the operations of Wellington Steel were merged with Steel & Tube Petone branch resulting in better utilisation of assets.

The Melbourne based special steels distributor John Stansfield-Smith was sold to Tubemakers of Australia Limited in November. In the same month involvement in the metal roofing and cladding industry was expanded by purchasing the assets of Longrun Industries Limited with branches in Auckland and Hamilton.

The Group adopted the name Longrun Industries for all its roofing and cladding operations and accordingly changed the name of G W Taylor Industries in January. The special fastenings operations trading as Wellington Fasteners, Aitchison Black Fasteners and Nuts & Bolts & Screws Dunedin are now all trading as Fastening Supplies, the same name that is used by the Auckland Branch.

A highlight of the year was that the Merchandising Division achieved certification to ISO 9002.

Merchandi

3.

- 1. Longrun Industries
  manufactured and supplied the
  6500 sq. metres of metal cladding
  required for the Crown Movers
  Building in Albany, Auckland.
- 2. Part of the 4 km of Ductile Iron Pipe manufactured by Tubemakers of Australia Limited for the Dunedin City Council.
- 3. Steel Coil being processed on the new Cut-to-Length Line at the Steel Service Centre in Auckland.

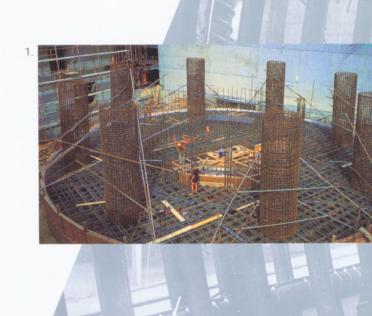

sing

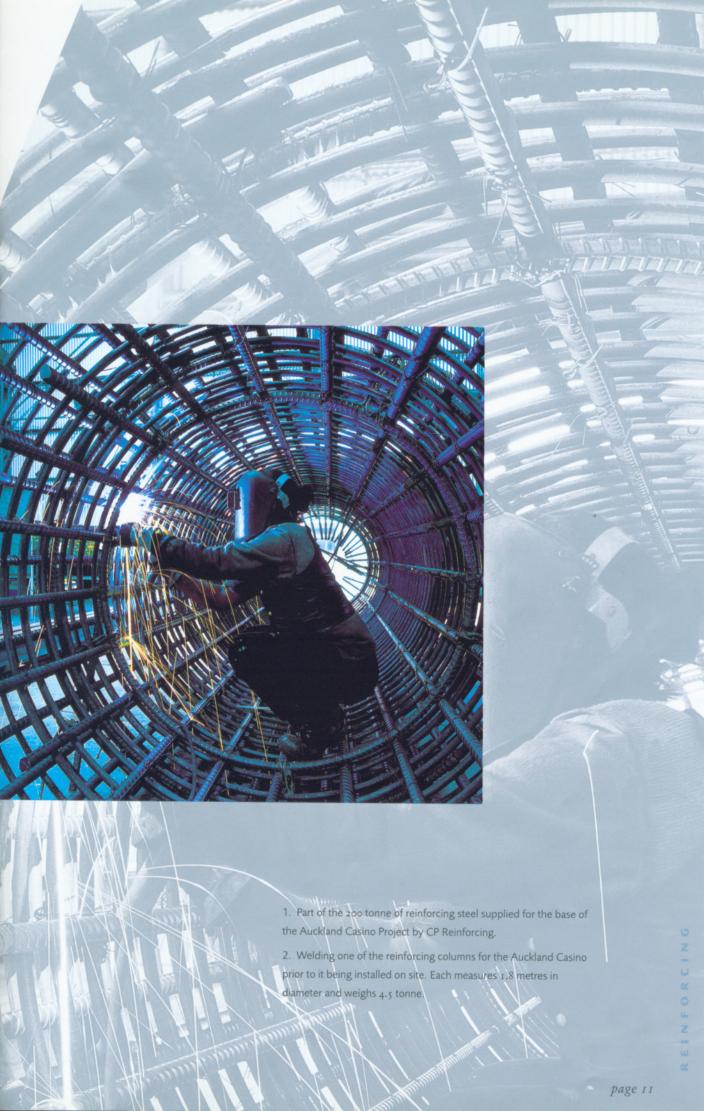

ш

Reinforcing once again benefited from the strong recovery of the building and construction sectors that was evident throughout the country.

The supply of steel reinforcing to a number of large contracts during the year, including the Auckland Casino and Palmerston North Library and also to car park buildings and apartment blocks in Wellington and Auckland, led to better utilisation of its resources and enhanced profitability.

Contracts on hand to commence the new financial year would indicate that the operations will continue to perform strongly.

1.

The year under review began positively with large contracts for the New Zealand Refinery in Whangarei and Methanex in Taranaki. These contracts helped the Engineering Operations to post increased profits.

Robt Stone's success in expanding its geographic base to obtain more consistent work in one of its main areas of expertise materialised with the completion of the Guntong D Offshore Oil and Gas Platform Joint Venture Contract in Malaysia. This Contract earned an Export Commendation Award which was presented by the Prime Minister, the Rt Hon James Bolger.

A further contract has since been obtained with the

Malaysian partners, Saga Dialog SDN BHD which relates to a slug waste facility.

Robt Stone gained certification during the year for ISO 9001.

-

Robt Stone &

2.

- 1. The Distillation III Project completed by Robt Stone showing the structural steel and mechanical plant in the main process area of the Methanex Plant at New Plymouth.
- 2. The pipe work section completed by the Malaysian Joint Venture situated 200 km from shore in the South China Sea connecting the Gas Compression Platform to the Guntong D Oil Production Platform.
- 3. Presentation of Export Award by the Prime Minister, the Rt Hon JB Bolger to Robt Stone, represented by its General Manager, Russell Donaldson.

Company

# MOTORCO

Increased demand for the new model Land Rover and Jaguar vehicles released midway through the year combined with favourable exchange rates enabled Motorcorp Holdings Limited to post increased profits. This greater volume also benefited the Parts and Service Divisions.

In the last three years Motorcorp had shown a marked turnaround and was trading well.

However, following the take over of Rover Group by BMW the withdrawal of the Rover and Land Rover franchise for New Zealand from Motorcorp represented a major change.

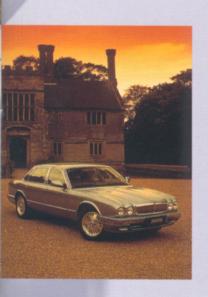

Despite the rising strength of the Jaguar franchise and the potential with Renault, the Steel & Tube Group decided to exercise its option to sell its holding in Motorcorp to its 50% partner.

# RP

The Rover emblem along with the latest Range Rover HFE 4.6 and XJ Series Jaguar.

#### 1. STATEMENT OF ACCOUNTING POLICIES

These financial statements are presented in accordance with the Companies Act 1955 and have been prepared in accordance with the Financial Reporting Act 1993. The Parent Company's financial statements are for Steel & Tube Holdings Limited as a separate entity and the consolidated financial statements are for the Steel & Tube Holdings Group which includes all its subsidiaries.

#### **GENERAL ACCOUNTING POLICIES**

The general accounting policies recognised as appropriate in the preparation of these financial statements are:

The measurement base adopted is that of historic cost except that land, buildings and investments have been revalued.

The following particular accounting policies which materially affect the financial position have been applied and are unchanged from last year.

#### (A) SALES

Sales shown in the Profit and Loss account comprise the amounts received and receivable by the Group for goods and services supplied to customers in the ordinary course of business. Sales are stated exclusive of Goods and Services Tax collected from customers.

#### (B) BASIS OF CONSOLIDATION

The consolidated financial statements are prepared from the accounts of the Parent Company and its subsidiaries as at 30 June 1995. The purchase method is applied for the purpose of consolidation and all significant intercompany transactions are eliminated on consolidation. The revaluation of assets reserve in the Parent Company reflects the increase in its share of the subsidiaries' shareholders' funds since acquisition.

#### (C) GOODWILL

The excess of the cost of shares in subsidiary companies over the fair value of net assets acquired is capitalised. Provided that the Directors are satisfied as to the continuing value of the goodwill to the Group it is carried forward and amortised over a period of ten years. These matters are reviewed by the Directors annually.

#### (D) NON CURRENT ASSETS

#### **Fixed Assets**

The cost of purchased fixed assets is the value of the consideration given to acquire the assets and the value of other directly attributable costs which have been incurred in bringing the assets to the location and condition necessary for their intended use.

Land and buildings have been previously revalued to 90% of market value as certified by independent registered valuers or in particular circumstances, at a lesser value considered to be appropriate by the Directors. All land and buildings were last revalued at 31 March 1991.

Land and buildings will continue to be carried in the balance sheet at the gross carrying amount determined by revaluation in March 1991 with subsequent additions at cost less total depreciation charged on buildings to date. Plant and other assets are recorded at cost less accumulated depreciation.

#### **Other Non Current Assets**

Land and buildings held for sale are recorded in the financial statements at their carrying amount at the date the properties were identified as available for sale except where the carrying amount is greater than net realisable value. In these circumstances the properties are written down to their net realisable value and the difference charged in the Profit and Loss statement.

#### (E) DEPRECIATION

Depreciation of all fixed assets, except freehold land, is calculated on the straight line method at rates which will write off their cost or valuation less their estimated residual values over their expected useful lives. The following are the assessed lives of the major categories of fixed assets:

Buildings Avera	ige 50 years
Motor vehicles	5 to 8 years
Plant and machinery	to 10 years
Office equipment 3	to to years

#### (F) INVESTMENTS

Investments in subsidiary companies are revalued to reflect the Parent Company's share of their net underlying assets. Investments in associate companies are valued at cost plus the share of post acquisition increases in reserves to equate to the Group's share of their net underlying assets.

Other investments are at valuation.

Dividend income is accounted for on a cash basis. Interest income on short term deposits is accounted for as earned.

#### (G) STOCK AND WORK IN PROGRESS

Stock is valued at the lower of cost and net realisable value. Cost is established principally on the average cost method which approximates actual cost determined on a FIFO basis. Stocks of own manufacture are valued at direct costs of labour, materials and overhead. Full provision is made for all defective, obsolete and slow moving stock. Long term contracts are valued by application of the percentage of completion method reduced by progress payments received or receivable. Other work in progress is valued at direct cost plus related overheads. Where losses have been identified full provision is made in respect of the estimated loss on the entire contract.

#### (H) DEBTORS

Debtors are valued at expected realisable value.

#### (I) TAX

The liability method of tax-effect accounting is used. The tax charged against the profit for the period is the estimated total liability in respect of that profit calculated at the present rate of company tax after allowance for permanent differences. This is the comprehensive basis for the calculation of deferred tax.

Tax losses are recognised to the extent that they will be recovered in the foreseeable future.

Subsequent realisation of deferred tax assets or income tax losses are subject to the requirements of income tax legislation being met.

#### (J) LEASING COMMITMENTS

Operating lease commitments are charged as expenses when incurred.

#### (K) OVERSEAS CURRENCY

Overseas currency transactions are recorded at the exchange rates in effect at the date of the transaction except where forward currency contracts have been taken out to cover short term forward currency commitments. Where short term forward currency contracts have been taken out the transaction is translated at the average rate contained in the contracts. Overseas currency balances are converted at the rates of exchange ruling at balance date. Exchange gains and losses on overseas currency loans are regarded as part of funding costs and all differences, both realised and unrealised, are treated as arising from the ordinary activities of the business in the period in which the exchange rate changes.

#### (L) FINANCIAL INSTRUMENTS

Financial Instruments entered into as hedges of an underlying exposure are accounted for on the same basis as the underlying exposure.

#### (M) STATEMENT OF CASH FLOWS

The following are the definitions of the terms used in the Statement of Cash Flows:

- (a) Cash is considered to be cash on hand, call deposits, current accounts in banks and bank overdrafts.
- (b) Investing activities are those activities relating to the acquisition, holding and disposal of fixed assets and of investments. Investments can include securities not falling within the definition of cash.
- (c) Financing activities are those activities which result in changes in the size and composition of the capital structure of the Group. This includes both equity and debt not falling within the definition of cash. Dividends paid in relation to the capital structure are included in financing activities.
- (d) Operating activities include all transactions and other events that are not investing or financing activities.

#### 2. BUSINESS ACTIVITIES DURING THE YEAR

The principal business activities of the Group during the year included:

- the merchandising of steel products
- the fabrication and installation of steelwork and mechanical plant
- the distribution of motor vehicles, parts and accessories

#### 19. RELATED PARTY DISCLOSURES

At balance date, Steel & Tube Holdings Limited was a subsidiary of Tubemakers of New Zealand Limited, which itself is ultimately controlled by Tubemakers of Australia Limited.

During the reporting period, transactions were conducted with Tubemakers of Australia Limited and subsidiaries (Tubemakers) [ultimate holder of 50.38% (1994 50.53%) of the voting securities of Steel & Tube Holdings Limited]

The Group sourced 4.7% (1994 3.9%) of its purchases from Tubemakers. The Group at balance date owed Tubemakers \$981,396 (1994 \$673,332) due in July 1995. All transactions with Tubemakers were conducted on an arm's length basis and on normal commercial terms.

In November 1994, the Group's only Australian subsidiary was sold to Tubemakers for \$3,637,000, resulting in a profit on sale of \$1,475,000. The disposal was made on normal commercial terms.

#### **20.CONTINGENT LIABILITIES**

Guarantees under contracts and other contingent liabilities of the Parent and Group total \$1,631,000 (1994 \$1,281,000).

#### 21. CAPITAL COMMITMENTS

The Group has capital commitments of \$1,616,000 (June 1994 \$1,765,000).

In excess of 90% of the Group's activities are carried out within New Zealand.

Prices on intersegment sales are negotiated on an arm's length basis.

#### TO THE SHAREHOLDERS OF STEEL & TUBE HOLDINGS LIMITED

We have audited the financial statements on pages 16 to 35. The financial statements provide information about the past financial performance and financial position of the Company and Group as at 30 June 1995. This information is stated in accordance with the accounting policies set out on pages 24 to 25.

#### **DIRECTORS' RESPONSIBILITIES**

The Company's Directors are responsible for the preparation of the financial statements which give a true and fair view of the financial position of the Company and Group as at balance date and the results of operations and cashflows for the year ended 30 June 1995.

#### **AUDITORS' RESPONSIBILITIES**

It is our responsibility to express an independent opinion on the financial statements presented by the Directors and report our opinion to you.

#### **BASIS OF OPINION**

An audit includes examining, on a test basis, evidence relevant to the amounts and disclosures in the financial statements. It also includes assessing:

- the significant estimates and judgements made by the Directors in the preparation of the financial statements, and
- whether the accounting policies are appropriate to the Company and Group circumstances, consistently applied and adequately disclosed.

We conducted our audit in accordance with generally accepted auditing standards in New Zealand. We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give reasonable assurance that the financial statements are free from material misstatements, whether caused by error or fraud. In forming our opinion we also evaluated the overall adequacy of the presentation of information in the financial statements.

Our firm carries out other assignments on behalf of the Company and its subsidiaries in the area of taxation and consulting advice.

#### **UNQUALIFIED OPINION**

We have obtained all the information and explanations we have required.

In our opinion:

- proper accounting records have been kept by the Company as far as appears from our examination of those records, and
- the financial statements on pages 16 to 35:
  - comply with generally accepted accounting practice; and
  - give a true and fair view of the financial position of the Company and Group as at 30 June 1995 and the results of their operations and cashflows for the year ended on that date.

Our audit was completed on 23 August 1995 and our unqualified opinion is expressed as at that date.
