

ALSYNITE® *exo-set206*®

PREMIUM GRADE GEL COAT

EXO-SET 206 Gelcoat
is a new generation
UV enhanced premium
Gelcoat now available on
all Topglass® GC/Topclad®
sheeting products.

now manufactured with

Formulated exclusively and batch blended in-house, this new Gelcoat has been formulated specifically to run on Alsynite designed and built panel lines.

Offering superior sheet clarity and unsurpassed long-term UV resistance against premature yellowing off, Alsynite Topglass® GC with EXO-SET 206 is the first choice in GRP Sheet selection.

Alsynite is committed to ongoing product design and technical developments and accordingly we monitor product long-term weathering performance using only accredited outdoor exposure facilities and laboratories.
